

SimplyMap™

 Powerful Data, Professional Results

Getting Started with SimplyMap

Step 1: Organization Login

In order to use SimplyMap, you must first log into your organization's account and create a personal workspace. There are two ways to log into an organization account:

- (a) manually login using an organization username and password (Geographic Research provides this information in your trial account e-mail), or
- (b) if your organization has provided us with the appropriate information, we can automatically login users based on the IP address of the computer being used

This means that some users will have to enter an organization username and password, while others will go directly to the personal login page.

Step 2: Personal Workspace

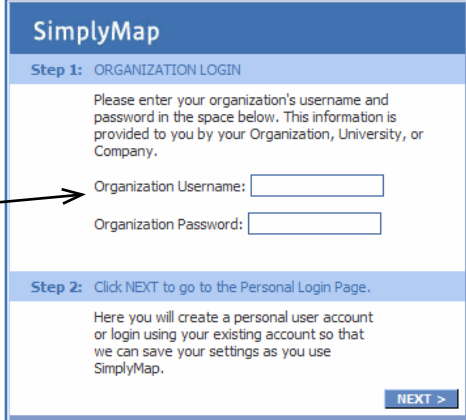

Once you have logged into your organization's account you must create a personal workspace. To create a workspace, click on the "create personal workspace" link on the workspace login page.

In the create workspace box, enter your e-mail address and password, and click "Register". A confirmation e-mail will then be sent to your e-mail address. If you do not receive this e-mail within two minutes, please check your SPAM folder.

Click on the activation link in the confirmation e-mail, and your account will be activated and ready to use. You may now go back to the personal workspace login page, enter your e-mail address and password, and start using SimplyMap!

If you have any questions, please e-mail us at:
support@geographicresearch.com

Organization Login (only some users will see this)

SimplyMap

Step 1: ORGANIZATION LOGIN

Please enter your organization's username and password in the space below. This information is provided to you by your Organization, University, or Company.

Organization Username:

Organization Password:

Step 2: Click NEXT to go to the Personal Login Page.

Here you will create a personal user account or login using your existing account so that we can save your settings as you use SimplyMap.
