Master List of Fellowships/Grants

1. Pepsi Refresh Project – Grants Program

Deadlines: New application cycle every month

Award Amount: Total of \$1.3 million, for up to 32 grants every application period.

Eligibility: Legal residents of the 50 United States and the District of Columbia, 13 years of age or older, residing in one of the 50 United States or the District of Columbia at the time of submitting an Application. Participants can be individuals, for profit organizations (which have a maximum of \$25 million in annual revenue) and non-profit organizations.

The Pepsi Refresh Project is an online grant program which makes available millions of dollars to be granted to projects which are intended to improve communities through an online, democratic voting process. The Grant Program consists of six (6) categories (1) HEALTH – fostering wellness; (2) ARTS & CULTURE – celebrating the arts; (3) FOOD

& SHELTER – ideas for providing food and shelter for the community; (4)

NEIGHBORHOODS – building better communities; (5) EDUCATION – helping people learn at any age; and (6) THE PLANET – ideas which help the planet.

<http://www.refresheverything.com/official-application-guidelines>

2. Smithsonian Research Internships and Fellowships

Deadline: Applications are accepted year-round

Award Amount: Varies

Eligibility: Undergraduate and Graduate students

The Smithsonian Institution offers various internships and fellowships in various disciplines to undergraduate and graduate students. The details can be found at the link below.

<http://www.si.edu/ofg/intern.htm>

3. David S. Bruce Awards for Excellence in Undergraduate Research (Experimental Biology)

Deadline: January 10, November 8

Award Amount: \$500 travel award

Eligibility: The candidate must be enrolled as an undergraduate student at the time of the application and at the time of the EB meeting; be the first author on a submitted abstract for the EB meeting (students may not submit more than one abstract for the award competition each year); and be working with an APS member who attests that the student is deserving of the first authorship. The applicant must not have previously won this award.

The awards are intended to recognize excellence in undergraduate research. They will be made each year at the Experimental Biology (EB) meeting to undergraduate students who have both submitted abstracts for the meeting and award application materials. At EB, all undergraduate students will be invited to present their research posters not only during their regular scientific session but also at a special poster session. Prior to that poster session, the finalists will be asked to set up their posters and will be interviewed by the Bruce Award Subcommittee. After the interviews, the committee will determine the final awardees. Abstracts and student letters will serve as the basis for selection of the finalists.

<http://www.the-aps.org/awards/student/bruce.htm>

4. Nieman Fellowships for Journalists

Deadline: January 31, 2010 for U.S. Journalists and Global Health reporting applicants, December 15, 2010 for international journalists.

Award Amount: The U.S. Fellowships include tuition, a \$60,000 stipend and housing and childcare support. Special funding arrangements apply to international fellows.

Nieman Fellowships provide a mid-career opportunity for journalists to spend a year of learning and reflection at Harvard. Fellowships are awarded to 12 U.S. journalists and 12 from other countries. The Foundation also awards 2 fellowships in Global Health reporting Fellows design an individual course of study and participate in Nieman seminars. The Nieman Fellowship program is the oldest and best-known mid-career program for journalists in the world. More than 1,300 journalists from the U.S. and 88 other countries have come to Harvard for a year of learning, exploration and fellowship. Nieman Fellows are provided the opportunity to step back from deadlines, renew their intellectual curiosity and enrich their understanding of the topics they cover.

<http://www.nieman.harvard.edu/NiemanFoundation.aspx>

5. NASA Undergraduate Student Research Program

Deadline: April 30, Oct 31, Feb 1

Award Amount: \$6,000 - \$9,000 stipend plus airfare

Eligibility: US citizens, Undergraduate students

The NASA-USRP seeks applications from undergraduates enrolled full-time in an accredited U.S. college or university. Applicants must be classified as rising sophomores, juniors or seniors at the beginning of the first session for which they are applying with a cumulative 3.0 GPA on a 4.0 scale; and have an academic major or demonstrated coursework concentration and strong interest in engineering, mathematics, computer science, or physical/life sciences.

<http://usrp.usra.edu/>

6. Ford Foundation International Fellowships Program

Award Name: Ford Foundation International Fellowships Program

For study in country: Unrestricted/Worldwide

Available to: Unrestricted/Worldwide

Award Amount: Varies

Submission Deadline: Varies

Ford Foundation International Fellowships Program applicants must be resident nationals or residents of an eligible IFP country or territory. Ford Foundation International Fellows may choose to study in any academic discipline or field of study related to the Ford Foundation's three grant-making areas, which are:

- Asset Building and Community Development
 - Community Development
 - Development Finance and Economic Security
 - Work-force Development
 - Environment and Development
- Knowledge, Creativity, and Freedom o Arts and Culture
 - Education and Scholarship
 - Media
 - Religion, Society and Culture
 - Sexuality and Reproductive Health
- Peace and Social Justice
 - Civil Society
 - Governance
 - Human Rights

<http://www.fordifp.org/Home/tabid/36/language/en-US/Default.aspx>

7. Fulbright Foreign Student Program

Award Name: Fulbright Foreign Student Program

For study in country: United States

Available to: non-US citizens

Award Amount: Varies 11

Submission Deadline: Varies

A mainstay of America's public-diplomacy efforts, the **Fulbright Foreign Student Program** brings citizens of other countries to the United States for Master's degree or Ph.D. study at U.S. universities or other appropriate institutions.

<http://foreign.fulbrightonline.org/fubrightprogram.html>

8. OAS Scholarships for Academic Studies

Award Name: OAS Scholarships for Academic studies

For study in country: Any OAS member country

Available to: Citizens of any OAS country

Award Amount: Varies based on country

Submission Deadline: Varies

OAS scholarships are awarded for full-time study, or research, leading to a graduate or undergraduate degree. OAS scholarships are awarded for study or research in institutions located in an OAS Member State. They are granted for a minimum period of one academic year and a maximum of two academic years.

http://www.educoas.org/portal/en/oasbecas/02_OAS_Scholarships_%202012-2013_Portal_E.pdf

9. Dissertation Fellowship Program (Multiple Fields)

Award Name: Spencer Dissertation Fellowship Program

For study in country: North America

Available to: Unrestricted/Worldwide

Award Amount: \$25,000

Submission Deadline: October 27

The Dissertation Fellowship Program seeks to encourage a new generation of scholars from a wide range of disciplines and professional fields to undertake research relevant to the improvement of education. These \$25,000 fellowships support individuals whose dissertations show potential for bringing fresh and constructive perspectives to the history, theory, or practice of formal or informal education anywhere in the world. Although the dissertation topic must concern education, graduate study may be in any academic discipline or professional field. In the past, fellowships have been awarded to candidates in anthropology, architecture, art history, economics, education, history, linguistics, literature, philosophy, political science, psychology, public health, religion, and sociology, but eligibility is not restricted to these academic areas. Candidates should be interested in pursuing further research in education once the doctorate is attained.

<http://www.spencer.org/content.cfm/dissertation-fellowships-in-education-program>

10. UNESCO Fellowships and Grants (Area / Ethnic Studies)

Award Name: Individual UNESCO Fellowships, Study Grants and Travel Grants

For study in country: Unrestricted/Worldwide

Available to: Unrestricted/Worldwide

Award Amount: Varies

Submission Deadline: Varies

The UNESCO Fellowships Program, through the award and administration of fellowships, study and travel grants, aims to:

- Contribute to the enhancement of human resources and national capacity-building in areas that are closely aligned to UNESCO's expected strategic objectives and program priorities and,
- Increase fellowships co-sponsorship arrangements with interested donors and extra budgetary funding sources through the Co-Sponsored Fellowships Program.

http://portal.unesco.org/en/ev.php-URL_ID=7972&URL_DO=DO_TOPIC&URL_SECTION=201.html

11. NSF Doctoral Dissertation Improvement Grants (SBE)

Award Name: NSF Doctoral Dissertation Improvement Grants

For study in country: US

Available to: Citizens of any country, currently enrolled in a US academic institution

Award Amount: \$6,000 - \$20,000

Submission Deadline: Varies

The National Science Foundation awards grants to doctoral students to improve the quality of dissertation research. These grants provide funds for items not normally available through the student's university. Additionally, these grants allow doctoral students to undertake significant data-gathering projects and to conduct field research in settings away from their campus that would not otherwise be possible. Proposals are judged on the basis of their scientific merit, including the theoretical importance of the research question and the appropriateness of the proposed data and methodology to be used in addressing the question.

<http://www.nsf.gov/pubs/2006/nsf06605/nsf06605.htm>

12. Smithsonian Institution Fellowship Program (Multiple fields)

Award Name: Smithsonian Institution Graduate Fellowship

For study in country: North America

Available to: Unrestricted/Worldwide

Award Amount: Graduate fellowship: \$6,000 stipend

Doctoral fellowships: \$27,000 - \$47,000 stipend per year

Submission Deadline: January 15

Graduate Student Fellowships are offered to students formally enrolled in a graduate program of study, who have completed at least one semester, and not yet been advanced to candidacy in a Ph.D. Program. Applicants must submit a proposal for research in a discipline which is pursued at the Smithsonian. For the graduate student fellowships, the term is 10 weeks, the stipend is \$6,000. Doctoral fellowship stipends range from \$27,000 to \$47,000 per year. Fellowships are offered in fields that are actively pursued by the museums and research organizations of the Institution. For complete list, visit the website.

<http://www.si.edu/ofg/Applications/SIFELL/SIFELLapp.htm>

All Smithsonian funding resources: <http://www.si.edu/ofg/fell.htm#fnmnh>

13. Grants-In-Aid Program (Natural Resources, Sciences)

Award Name: AAPG Grants-in-Aid

For study in country: Unrestricted/Worldwide

Available to: Unrestricted/Worldwide

Award Amount: \$500 - \$3000

Submission Deadline: January 31st, 2011

The purpose of the AAPG Foundation's Grants-in-Aid program is to foster research in the geosciences. Grants are made to provide financial assistance to graduate students (currently enrolled in Masters or Ph.D. programs) whose thesis research has application to the search for and development of petroleum and energy-mineral resources, and/or to related environmental geology issues. Grants are based on merit, and in part, on the financial needs of the applicant.

<http://foundation.aapg.org/gia/>

14. Asian Cultural Council Fellowship (Liberal Arts / Humanities)

Award Name: Asian Cultural Council

For study in country: North America

Available to: Citizens of certain Asian countries and the US

Award Amount: Up to \$10,000

Submission Deadline: February 1

Fellowships to individuals constitute the central feature of the ACC's grant program, with an emphasis on awards to artists, scholars and specialists for research, study and creative work. Grants

are also made to educational and cultural institutions engaged in projects of special significance to Asian-American exchange.

<http://www.asianculturalcouncil.org/>

15. Franklin Mosher Baldwin Fellowship (Anthropology)

Award Name: Franklin Mosher Baldwin Fellowship

For study in country: Unrestricted

Available to: Citizens of developing countries

Award Amount: Up to \$12,000 per year

Submission Deadline: February 15th, 2011

This fellowship is intended for scholars with citizenship in a developing country who seek to obtain an advanced degree or specialized training in an area of study related to human origins research. This award is for a program of approved special training and/or advanced training towards an MA, PhD, or equivalent and is limited to two years of support.

http://www.leakeyfoundation.org/index.php?option=com_content&view=article&id=11280

16. Scholarships for Latin American Students (Engineering, Architecture)

Award Name: ALPIP project

For study in country: Europe

Available to: Citizens of Latin American countries

Award Amount: 10,000 Euros

Submission Deadline: May 1

The ALPIP acronym (America Latina Plemonte Politecnico) nominates an ambitious cooperation project with Latin America countries aimed to reinforcement of academic exchanges and the promotion of new lines of internationalisation which see the cooperative participation of universities and the socio-economic system. The ALPIP project is open to students who are citizens of Latin American countries and/or come from Latin American universities.

http://international.polito.it/en/financial_aid/politecnico_international_scholarships/complete_list_of_scholarship_projects/alpip

17. NSF Research Experiences for Undergraduates

Deadlines: June 4, 2010, August 25, 2010

Award Amount: Total funding available: \$67,700,000 in FY2010. Estimated number of awards: 1,800 to 1,850

Eligibility: Undergraduate student participants, must be citizens or permanent residents of the United States or its possessions.

The Research Experiences for Undergraduates (REU) program supports active research participation by undergraduate students in any of the areas of research funded by the National Science Foundation. REU projects involve students in meaningful ways in ongoing research programs or in research projects specifically designed for the REU program.

<http://www.nsf.gov/pubs/2009/nsf09598/nsf09598.htm>

18. Fellowships for Transformative Computational Science using CyberInfrastructure

Deadline: June 21, 2010

Award Amount: 6 – 8 anticipated number of awards. Total funding: \$2 million

Eligibility: Must be U.S. citizens, nationals, or legally admitted permanent resident aliens of the United States at the time of application. Must receive a doctoral degree by the start date of the award, but no more than two years before as of January 1 of the year of the award. Must select a host institution and sponsoring scientist(s) different from their doctoral degree. Under extraordinary circumstances, applicants may continue at their doctoral institution and/or be sponsored by their doctoral advisor, but must select a research plan that is significantly different from their PhD research.

The overarching goal of the NSF Fellowships for Transformative Computational Science using Cyberinfrastructure (CI TRaCS) program is to support outstanding scientists and engineers who have recently completed doctoral studies and are interested in pursuing postdoctoral activities in computational science, and thereby nurturing the future leaders in this emerging and important multidisciplinary field. Computational research and education activities that are cyberinfrastructure-based and cross disciplinary boundaries are a key focus of this program. Successful Fellows may, for example, use cyberinfrastructure to make revolutionary advances in their disciplines, and/or deploy cyberinfrastructure-based technologies that enable innovative computational practices.

<http://www.nsf.gov/pubs/2010/nsf10553/nsf10553.htm>

19. Earth Sciences Postdoctoral Fellowships

Deadlines: July 1, 2010

Award Amount: \$85,000 per year per fellowship during fiscal years 2010 to 2011, 10 fellowships per year contingent upon availability of funds.

Eligibility: Applicants must:

- Be U.S. citizens (or nationals) or legally admitted permanent residents of the United States at the time of application;
- Either currently be a graduate student or, have held a PhD degree in a scientific or engineering field for no more than 3 years prior to the award start date;
- Must present research and education plans that fall within the purview of the Division of Earth Sciences at NSF
- Select a host institution and sponsoring scientist different from the doctoral degree and current position (current at the time of application and of award)
- Not have submitted concurrently the same project to another NSF program.

The Division of Earth Sciences (EAR) awards Postdoctoral Fellowships to highly qualified investigators within 3 years of obtaining their PhD to carry out an integrated program of independent research and education. The research and education plans of each fellowship must address scientific questions within the scope of EAR disciplines. The program supports researchers for a period of up to 2 years with fellowships that can be taken to the institution or national facility of their choice. The program is intended to recognize beginning investigators of significant potential, and provide them with experience in research and education that will establish them in leadership positions in the Earth Sciences community. Since the fellowships are offered only to postdoctoral scientists early in their career, doctoral advisors are encouraged to discuss the availability of EAR fellowships with their graduate students early in their doctoral programs. Fellowships are awards to individuals, not institutions, and are administered by the Fellows.

<http://www.nsf.gov/pubs/2010/nsf10500/nsf10500.htm#toc>

20. Kennedy Research Grants

Deadline: August 15, 2010

Award Amount: \$500 to \$2,500

Eligibility: Scholars and students are invited to apply for these research grants.

Each year in the spring and fall, The John F. Kennedy Library Foundation provides funds for the award of a number of research grants in the range of \$500 to \$2,500. The purpose of these grants is to help defray living, travel, and related costs incurred while doing research in the textual and non-textual holdings of the library. Grant applications are evaluated on the basis of expected utilization

of available holdings of the Library, the degree to which they address research needs in Kennedy period studies, and the qualifications of applicants. Preference is given to dissertation research by Ph.D. candidates working in newly opened or relatively unused collections, and to the work of 6 recent Ph.D. recipients who are expanding or revising their dissertations for publication, but all proposals are welcome and will receive careful consideration.

<http://www.jfklibrary.org/JFK+Library+and+Museum/Kennedy+Library+Foundation/Programs+and+Library+Support/Research+Grants+and+Fellowships/Kennedy+Research+Grants.htm>

21. Physical Anthropology

Deadline: August 16, 2010

Award Amount: \$20,000

The Physical Anthropology Program supports basic research in areas related to human evolution and contemporary human biological variation. Research areas supported by the program include, but are not limited to, human genetic variation, human adaptation, human osteology and bone biology, human and nonhuman primate paleontology, functional anatomy, and primate socioecology. Grants supported in these areas are united by an underlying evolutionary framework, and often a consideration of adaptation as a central theoretical theme. Many proposals also have a biocultural orientation. The program frequently serves as a bridge within NSF between the social and behavioral sciences and the natural and physical sciences, and proposals are commonly jointly reviewed and funded with other programs.

<http://www.nsf.gov/sbe/bcs/phys/suppdiss.jsp>

22. Economics

Deadline: August 18, 2010

Award Amount: \$12,000

This program is designed to improve the quality of dissertation research. These grants provide funds for items not normally available through the student's university. Additionally, these grants allow doctoral students to undertake significant data gathering projects and to conduct field research in settings away from their campus that would not otherwise be possible. The program does not provide cost-of-living or other stipends or tuition. Outstanding proposals specify how the knowledge to be created advances economics science.

<http://www.nsf.gov/sbe/ses/econ/ddrip1.jsp>

23. Decision, Risk & Management Sciences

Deadline: August 18, 2010

Award Amount: \$12,000

The Decision, Risk and Management Sciences program supports scientific research directed at increasing the understanding and effectiveness of decision making by individuals, groups, organizations, and society. Disciplinary and interdisciplinary research, doctoral dissertation research, and workshops are funded in the areas of judgment and decision making; decision analysis and decision aids; risk analysis, perception, and communication; societal and public policy decision making; management science and organizational design. The program also supports small grants that are time-critical and small grants that are high-risk and of a potentially transformative nature (see Grants for Rapid Response Research (RAPID) and EARly- concept Grants for Exploratory Research(EAGER)).

<http://www.nsf.gov/sbe/ses/drms/ddrip1.jsp>

24. Science, Technology, and Society

Deadline: September 9, 2010

Award Amount: \$10,000

STS considers proposals that examine historical, philosophical, and sociological questions that arise in connection with science, engineering, and technology, and their respective interactions with society. STS has four components:

1. Ethics and Values in Science, Engineering and Technology (EVS),
2. History and Philosophy of Science, Engineering and Technology (HPS)
3. Social Studies of Science, Engineering and Technology (SSS),
4. Studies of Policy, Science, Engineering and Technology (SPS).

<http://www.nsf.gov/sbe/ses/ssociety/ssdiss1.jsp>

25. Digital Innovation Fellowships (Humanities, humanistic social sciences)

Deadline: September 29

Award Amount: Up to \$60,000 stipend, and up to \$25,000 for project costs

Eligibility: This program is open to scholars in all fields of the humanities and the humanistic social sciences. Applicants must have a Ph.D. degree conferred prior to the application deadline. (An

established scholar who can demonstrate the equivalent of the Ph.D. in publications and professional experience may also qualify.) U.S. citizenship or permanent resident status is required as of the application deadline.

This program supports digitally based research projects in all disciplines of the humanities and humanities-related social sciences. ACLS Digital Innovation Fellowships are intended to support an academic year dedicated to work on a major scholarly project that takes a digital form. Projects may involve development of:

- new digital tools that further humanistic research (such as digital research archives or innovative databases),
- research that depends on or is greatly enhanced by the use of such tools,
- the representation of research that depends on or is greatly enhanced by the use of such tools,
- or some combination of these features.

<http://www.acls.org/programs/digital/>

26. Robert Wood Johnson Foundation Health & Society Scholars (for Postdoctoral Scholars)

Deadline: October 1, 2010

Award Amount: Up to \$89,000 stipend per year, for 2 years

Eligibility: Individuals who have completed their doctoral training by the time of entry into the program (August or September 2011) in one of a variety of fields including, but not limited to: behavioral and social sciences; biological and natural sciences; health professions; public policy; public health; history; demography; environmental sciences; urban planning; engineering; and ethics. The Robert Wood Johnson Foundation Health & Society Scholars program enhances and broadens the intellectual perspectives that scholars bring from their original disciplines. Each year, the program enables up to 18 individuals who have completed their doctoral training and produced outstanding work to engage in an intensive two-year program at one of six nationally prominent universities. Training activities at the participating universities are intentionally flexible to meet the diverse backgrounds, interests and needs of individual scholars. The program thus expands the intellectual scope, collaborative competence, shared language and scientific creativity of both scholars and faculty.

http://www.rwjf.org/files/applications/cfp/cfa_HSS2010.pdf

27. Astronomy and Astrophysics Postdoctoral Fellowships

Deadline: October 13, 2010

Award Amount: 8 – 9 estimated awards. Estimated funding amount: \$750,000

Eligibility: NSF Astronomy and Astrophysics Postdoctoral Fellowships are awards to 8 individuals; proposals to be submitted directly by the fellowship candidate to NSF. Each candidate must identify one or more sponsoring scientist(s) and host institution(s) at the time of proposal submission.

NSF Astronomy and Astrophysics Postdoctoral Fellowships provide an opportunity for highly qualified, recent doctoral scientists to carry out an integrated program of independent research and education. Fellows may engage in observational, instrumental, theoretical, laboratory or archival data research in any area of astronomy or astrophysics, in combination with a coherent educational plan for the duration of the fellowship. The program supports researchers for a period of up to three years with fellowships that may be taken to eligible host institution(s) of their choice. The program is intended to recognize early-career investigators of significant potential and to provide them with experience in research and education that will establish them in positions of distinction and leadership in the community. For information about past awarded projects, [click here](#).

http://www.nsf.gov/funding/pgm_summ.jsp?pims_id=5291&org=NSF

28. Geography and Spatial Sciences

Deadline: October 15, 2010

Award Amount: \$12,000

The Geography and Spatial Sciences Program sponsors research on the geographic distributions and interactions of human, physical, and biotic systems on the Earth's surface. Investigations are encouraged into the nature, causes, and consequences of human activity and natural environmental processes across a range of scales. Projects on a variety of topics (both domestic and international) qualify for support if they offer promise of contributing to scholarship by enhancing geographical knowledge, concepts, theories, methods, and their application to societal problems and concerns. GSS encourages projects that explicitly integrate undergraduate and graduate education into the overall research agenda. Proposals submitted for consideration by the Geography and Spatial Sciences Program at NSF tend to be most competitive if the research is grounded in relevant geographical theory, if it focuses on one or a few core questions grounded in the theoretical framework that has been established, if it articulates how scientifically sound methods will be used to explore the validity of answers to the core questions, and if the results are likely to contribute not only specific answers to those specific questions but also to the enhancement of broader geographic and/or spatial scientific theory. The project can draw on and contribute to theory in other fields, too, but to obtain at least some funding from GSS, efforts should be made to enhance fundamental geographic theory, and the investigators should plan to disseminate their results through presentations and publications for geographers and 9 spatial scientists as well as other relevant communities.

<http://www.nsf.gov/sbe/bcs/grs/suppdiss.jsp>

29. Sociology

Deadline: October 15, 2010

Award Amount: \$10,000

The Sociology Program supports basic research on all forms of human social organization -- societies, institutions, groups and demography -- and processes of individual and institutional change. The Program encourages theoretically focused empirical investigations aimed at improving the explanation of fundamental social processes. Included is research on organizations and organizational behavior, population dynamics, social movements, social groups, labor force participation, stratification and mobility, family, social networks, socialization, gender roles, and the sociology of science and technology. The Program supports both original data collections and secondary data analysis that use the full range of quantitative and qualitative methodological tools. Theoretically grounded projects that offer methodological innovations and improvements for data collection and analysis are also welcomed. The Sociology Program also funds doctoral dissertation research to defray direct costs associated with conducting research, for example, dataset acquisition, additional statistical or methodological training, meeting with scholars associated with original datasets, and fieldwork away from the student's home campus.

<http://www.nsf.gov/sbe/ses/soc/socckl1.jsp>

30. Dissertation Completion Fellowship (Humanities, Social Sciences)

Deadline: November 10

Award Amount: Up to \$33,000

Eligibility: U.S. Citizens / Permanent residents, graduate students

The Mellon/ACLS Dissertation Completion Fellowships are to assist graduate students in the humanities and related social sciences in the last year of Ph.D. dissertation writing. This program aims to encourage timely completion of the Ph.D. Applicants must be prepared to complete their dissertations within the period of their fellowship tenure and no later than August 31, 2012. Appropriate fields of specialization include but are not limited to: American studies; anthropology; archaeology; art and architectural history; classics; economics; film; geography; history; languages and literatures; legal studies; linguistics; musicology; philosophy; political science; psychology; religious studies; rhetoric, communication, and media studies; sociology; and theater, dance, and performance studies. Proposals in the social science fields listed above are eligible only if they employ predominantly humanistic approaches (e.g., economic history, law and literature, political theory). Proposals in interdisciplinary and cross-disciplinary studies are welcome, as are proposals focused on any geographic region or on any cultural or linguistic group.

<http://www.acls.org/programs/dcf/>

31. Humane Studies Fellowship (Humanities)

Award Name: Humane Studies Fellowships
For study in country: Unrestricted/Worldwide
Available to: Unrestricted/Worldwide
Award Amount: Up to \$12,000
Submission Deadline: December 31

The Institute for Humane Studies awards scholarships of up to \$12,000 to individuals interested in the classical liberal/libertarian tradition for advanced undergraduate or graduate study in the United States or abroad. Humane Studies Fellowships are awarded by the Institute for Humane Studies (IHS) to students interested in exploring the principles, practices, and institutions necessary for a free society through their academic work. IHS considers applications from those who will be full-time graduate students, including law and journalism students, or undergraduate juniors or seniors during the 2010-11 academic year and who have a clearly demonstrated research interest in the intellectual and institutional foundations of a free society.

32. Architecture Traveling Fellowship Program (Architecture and Design)

Award Name: Architecture Traveling Fellowship Program
For study in country: Unrestricted/Worldwide
Available to: Unrestricted/Worldwide
Award Amount: \$10,000
Submission Deadline: July 19th, 2010

This award is designed to broaden student education, instill a heightened sense of responsibility as future practitioners, to improve the quality of built and natural environments and to encourage appreciation of place-making, culture and technology on the design of buildings and their settings. The SOM Prize in architecture, design and urban design is a \$50,000 research and travel fellowship that enables one outstanding student to do in-depth research, collaborate with other designers, and pursue independent study outside the realm of established patterns. In addition to the grand SOM Prize, the Foundation also awards a \$20,000 travel fellowship to the second strongest candidate.

33. William E. Jackson Award (Aviation electronics, telecommunications)

Award Name: William E. Jackson Award
For study in country: Unrestricted/Worldwide
Available to: Unrestricted/Worldwide
Award Amount: \$2,000
Submission Deadline: September 30th, 2010

RTCA annually presents the William E. Jackson award to an outstanding graduate student in the field of aviation electronics and telecommunications. This award, which is a memorial to William E. Jackson – a pioneer in the development and implementation of the nation's air traffic control system and an enthusiastic supporter of student engineers – includes a personalized plaque and a \$4000 honorarium. The William E. Jackson award is presented at a special banquet during the RTCA Annual Symposium.

34. Getty Research Grants (Arts / Art History)

Award Name: Getty Research Grants
For study in country: United States
Available to: Unrestricted/Worldwide
Award Amount: \$500 - \$2,500
Submission Deadline: November 1

Getty Library Research Grants provide partial, short-term support for costs relating to travel and living expenses to scholars whose research requires use of specific collections housed in the Research Library at the Getty Research Institute. Library Research Grants are intended for scholars of all nationalities and at any level who demonstrate a compelling need to use materials housed in the Research Library, and whose place of residence is more than eighty miles from the Getty Center.

35. Doctoral Dissertation Fellowship (Liberal Arts / Humanities)

Award Name: Charlotte W. Newcombe Doctoral Dissertation Fellowship
For study in country: North America
Available to: Unrestricted/Worldwide
Award Amount: \$25,000, in addition to tuition waivers
Submission Deadline: November 15th, 2010

The Charlotte W. Newcombe Doctoral Dissertation Fellowships are designed to encourage original and significant study of ethical or religious values in all fields of the humanities and social sciences, and particularly to help Ph.D. candidates in these fields complete their dissertation work in a timely manner. In addition to topics in religious studies or in ethics (philosophical or religious), dissertations appropriate to the Newcombe Fellowship competition might explore the ethical implications of foreign policy, the values influencing political decisions, the moral codes of other cultures, and religious or ethical issues reflected in history or literature. The Newcombe Fellowships are provided to Ph.D. candidates at institutions in the United States who will complete their dissertations during the fellowship year.

37. NSF Doctoral Dissertation Improvement Grants in Biological Sciences

Award Name: NSF Doctoral Dissertation Improvement Grants

For study in country: US

Available to: Citizens of any country, currently enrolled in a US academic institution

Award Amount: Estimated total funding \$1,600,000, with up to 100-120 estimated awards

Submission Deadline: November 19, 2010

The National Science Foundation awards Doctoral Dissertation Improvement Grants in selected areas of the biological sciences. These grants provide partial support of doctoral dissertation research to improve the overall quality of research. Allowed are costs for doctoral candidates to participate in scientific meetings, to conduct research in specialized facilities or field settings, and to expand an existing body of dissertation research.

40. NEH Fellowships (Humanities)

Deadline: May 3

Eligibility: All U.S. citizens are eligible to apply. Foreign nationals who have been living in the United States for at least the *three years* prior to the application deadline are also eligible. Applications are accepted from researchers, teachers, and writers, whether they have an institutional affiliation or not. Individuals currently enrolled in a degree-granting program are ineligible to apply

Award Amount: Fellowships cover periods lasting from six to twelve months at a stipend of \$4,200 per month in outright funds. The maximum stipend is \$50,400 for a twelve-month period.

Fellowships support individuals pursuing advanced research that is of value to humanities scholars, general audiences, or both. Recipients usually produce articles, monographs, books, digital materials, archaeological site reports, translations, editions, or other scholarly resources in the humanities. Projects may be at any stage of development. Fellowships support continuous full-time work for a period of six to twelve months.

41. Guggenheim Research Grants (Social Sciences/ Humanities)

Deadline: August 1

Eligibility: Applicants for a research grant may be citizens of any country. While almost all recipients of our research grant possess a Ph.D., M.D., or equivalent degree, there are no formal degree requirements for the grant.

Award Amount: Most awards fall within the range of \$15,000 to \$40,000 per year for periods of one or two years.

The foundation welcomes proposals from any of the natural and social sciences and the humanities that promise to increase understanding of the causes, manifestations, and control of violence and aggression. Highest priority is given to research that can increase understanding and amelioration of urgent problems of violence and aggression in the modern world.

Questions that interest the foundation concern violence and aggression in relation to social change, intergroup conflict, war, terrorism, crime, and family relationships among other subjects. Research with no relevance to understanding human problems will not be supported, nor will proposals to investigate urgent social problems where the foundation cannot be assured that useful, sound research can be done. Priority will also be given to areas and methodologies not receiving adequate attention and support from other funding sources.
