NSF Graduate Research Fellowship Program  
**APPLICANT RATING SHEET**

Applicant: Julian, Resasco

Panel: Ecology

**Intellectual Merit Criterion**

Demonstrated intellectual ability and other accepted requisites for scholarly scientific study, such as the ability (1) to plan and conduct research; (2) to work as a member of a team as well as independently; and (3) to interpret and communicate research findings.

Overall Assessment of Intellectual Merit  Excellent  Very Good  Good  Fair  Poor

*Mandatory* - explain assessment to the applicant:

Julian research background is extremely strong. She has been involved in multiple projects ranging from invasion sp to mammal diets. During these projects she worked independently or as part of a team. In addition she has been involved in all aspects of research. She ~~has~~ has a publication as a first author and has presented at several meetings. Her proposal was well written and she can lead preliminary lab!

**Broader Impacts Criterion**

Contributions that (1) effectively integrate research and education at all levels, infuse learning with the excitement of discovery, and assure that the findings and methods of research are communicated in a broad context and to a large audience; (2) encourage diversity, broaden opportunities, and enable the participation of all citizens--women and men, underrepresented minorities, and persons with disabilities--in science and research; (3) enhance scientific and technical understanding; and (4) benefit society.

Overall Assessment of Broader Impacts  Excellent  Very Good  Good  Fair  Poor

*Mandatory* - explain assessment to the applicant:

Julian integration of education and research is great. She has been involved in multiple activities that have incorporated science and outreach. For example she has participated in the B. Biol. for 2 years, volunteered in a program where kids from different backgrounds collected aquatic insects and she will be mentoring students under the NSF-CK-12 SPICE program.

Reviewer comments to the applicant on this rating sheet should be constructive and reflect the two NSF merit review criteria. Applicants
