* Selection criteria:
Ohio State University listed but not included in averages, other institutions are the top ten public university libraries, based on the Association of Research Libraries "ARL membership criteria index"
The ARL index is calculated using weighted values for five data elements; Number of volumes held, number of volumes added (gross), Number of current serials received, Total operating expenditures, and Number of professional plus support staff.
** Institutional Budgets under new FASB/GASB accounting methods for Instruction, Research and Academic Support as reported in NCES Survey Year 2003, latest year available. Note: these figures are lower than in previous years.
*** As reported in NCES 2003 Survey, latest year available
**** Includes librarians and support staff expressed in FTE
Sources: ARL Annual Survey preliminary files 2004 and NCES - IPEDS Peer comparison files 2003 adjudicated data
