“Pioneer Days in Florida: Diaries and Letters from the Settling of the Sunshine State, 1800-1900”

A Listing of Materials Selected for the Proposed Digital Project

Provenance of Materials

All materials come from the Florida Miscellaneous Manuscripts Collection in the P.K. Yonge Library of Florida History, Special Collections, George A. Smathers Libraries, University of Florida. Diaries and family collections are stored by the name of the major creator/writer. Other items have individual call numbers and are stored in folders in a shelving area dedicated to all types of small collections and miscellaneous papers (19th and 20th century records and personal papers, print materials, photocopies of research materials from other archives, etc.). “Pioneer Days in Florida” will digitize only the original 19th century manuscripts in the possession of the University of Florida. Exclusions from scanning will include—blank pages in diaries; routine receipts in family papers; and non-original or photocopied materials sometimes filed with original manuscripts.

About the Metadata

The project diaries have corresponding UF Library Catalog Records. Family collections have EAD Finding Aids along with UF Library Catalog Records. Other items are described in an online guide called the Florida Miscellaneous Manuscripts Database (http://web.uflib.ufl.edu/miscman/asp/advanced.htm ) and in some cases have a UF Library Catalog Record (noted below when present).

Diaries and Memoirs: Existing UF Library Catalog Records

Writer / Years Covered
